np! articles

np! articles is a dynamic blog dedicated to driving positive change and accelerating the transition to a more sustainable future. Founded in 2024, we are committed to addressing the most pressing environmental challenges of our time, including climate change, biodiversity loss, and resource depletion. At *np! articles*, we believe that sustainability is not just an option, but a necessity for the well-being of our planet and future generations. Our mission is to develop innovative solutions that tackle environmental issues while promoting social equity and economic prosperity. Through, a combination of research, and published scientific articles we work tirelessly to:

- Inspire and educate communities about sustainable practices
- Collaborate to implement eco-friendly practices
- Support groundbreaking projects
- Empower individuals to make positive changes
- Publish research articles in sustainable development

“We sustain for sustainability”
np! articles

Our approach is rooted in the understanding that environmental challenges are interconnected with social and economic issues. We strive to create holistic solutions that address multiple aspects of sustainability simultaneously. By harnessing the power of collective action and innovative thinking, **np! articles** is committed to creating a world where people and nature can thrive together. Join us in our mission to build a cleaner, more just, and sustainable future for all.

About Pravin Sankhwar

With a passion for environmental stewardship and a commitment to sustainable practices, Pravin Sankhwar brings 13 years of experience in engineering design and research. Holding a degree in master’s in electrical engineering from Michigan Tech, a bachelor’s in electrical engineering from Malviya National Institute of Technology, and a PhD candidate with the University of the Cumberland, he combines academic knowledge with practical expertise to drive meaningful change in renewable energy.

Throughout his career, Pravin Sankhwar has successfully led projects that promote sustainable initiatives, reduce carbon footprints, and engage communities in eco-friendly practices. He believes in the power of collaboration and innovative thinking to address today’s environmental challenges.

At ***np! articles***, Pravin Sankhwar is dedicated to developing strategies that not only meet academic needs but also contribute to a healthier planet. Outside of research work, he enjoys parenting and poetry. Together, with a focus on sustainability and community engagement, Pravin Sankhwar aims to inspire others to join in the pursuit of a more sustainable future.
